Apologetics Quiz #6

1. True or False: It is vital for a Christian to believe what the Bible says, even if scientific evidence is contrary to it.
2. True or False: The Bible says it is impossible for the unsaved to accept spiritual truth.
3. True or False: It is biblical to detour from presenting biblical truth in order to prove the Bible is reliable by all of the archaeological, historical, scientific, and other evidences that are readily available.
4. True or False: By virtue of having been saved, most Christians see the need for presenting only the light of Scripture to the blinded unbeliever.
5. What separates men from beasts?
6. According to Whitcomb, who is likely to be most used of God in evangelism?
7. Why must the Scriptures be rational?
8. (Four points) Whitcomb gives two examples of Apostles who were on the opposite ends of the academic spectrum. Who were they and why is their academic background important?
9. According to Whitcomb, what is the essential “answer” each believer “basically” must be ready to give?
10. What does Whitcomb suggest is the truth about those who use evidence as their apologetic?
11. What Chapter of Acts or what sermon is used as an example of semi-rationalistic apologetics?
12. (Two points) Can someone be saved apart from knowing Jesus Christ? What about those who have never heard of Him?
13. Name one Biblical example that proves evidence does not save (not a reference, but a real-life example).
14. Extra Credit (2 points, must have all of them): What are the 4 W’s (one point each—must be as presented in class)?
